Examiner's Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The art of record considered as a whole alone or in combination neither anticipates nor renders obvious, a method for removing material from a microelectronic substrate, comprising: engaging the microelectronic substrate with a planarizing medium; moving at least one of a part of the microelectronic substrate and a first portion of the planarizing medium relative to the other at a first rate; moving at least one of a second part of the microelectronic substrate and the first portion of the planarizing medium relative to the other at a second rate less than the first rate; advancing the polishing medium from a supply roller to a take up roller to ensure a second portion of the polishing medium with the first and second parts of the microelectronic substrate; and removing material from the first and second parts of the microelectronic substrate at approximately equal rates by biasing the first part of the microelectronic substrate against the planarizing medium with a first membrane portion having a first thickness and biasing the second part of the microelectronic substrate against the medium with a second membrane portion having a second thickness greater than the first thickness, together in combination with the rest of the limitations set forth in the dependent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
